Assembly Responsibilities	Hosokawa	by
Supervision/Installation supervision	Alpine	customer

Personal

Site manager (for our trade)		X
Installation supervision/Supervisor	X	
Assembly staff		X
Electrical specialist		X

Tool, Accessories

Tool (e.g. hand tool, small machine Flex; drilling machine)		X
Frameworks		X
Lifting gear, chain hoist		X
Crane		X
Welding device		X
Supporting energies (water, waste water, compressed air, process gas, electricity, cleaning agents)		X

Assembly material

Pad plates		X
Ground tie		X
Support/fastening material for pipelines		X
Support structures/underframes		X
Sound insulation, thermal insulation, contact protection		X
Cable channels		X
Facings, seals against steel structure/building		X
Cable material		X

Building works

Foundation work, foundation ties		X
Wall breakthroughs /		X

Changes to buildings	
Sealing /	X
Covering of breakthroughs	
Building equipment (lights, sockets, doors, ...)	X
Fixtures, supports for cables, cable channels, pipes	X

On site assembly activities

Set up construction site (supply of office, sanitary and staff containers)	X
On-site security (occupational safety, security guards, personal protection)	X
Place foundation	X
Assemble steel structure (if included in the scope of delivery)	X
Set individual components and build them onto buildings or steel structures	X
Installation supervision X (Instruction and professional support of the assembly staff during the assembly activities related to our scope of delivery)	
Connection to customer equipment (e.g. aspiration)	X
On-site adjustment work	X
Piping (product and process gas carrying main piping)	X
Piping/tubing (media: compressed air, nitrogen, cooling water, ...) - Gas distributor to field device	X
Piping/tubing (media: compressed air, nitrogen, cooling water, ...) - Main supply to the distributor	X
Cable channels & terminal units - assembly / fitting work	X

Wiring (place cables, clamp on, label)	X
Inspection / Final assessment / Documentation of the assembly	X
On-site final assessment (welding test, pressure test, grounding, calibration, crane final assessment, static final assessment)	X
Painting after final assembly	X
Cleaning of construction site and Disposal of waste, packaging material	X
Outside cleaning of the unit	X
Inside cleaning of the unit	X
